New Paintings by Zsófia Ötvös  
CSI Project Space & Gallery, Chicago  
February 2026

**2026, February CHICAGO, III.** — *People* is a solo exhibition by Zsófia Ötvös presenting new paintings of figures suspended on the verge of change. The exhibition is on view throughout February 2026 at CSI ProjectSpace & Gallery, located at 1912 N. Damen Avenue in Chicago's Bucktown neighborhood.

The works focus on moments of pause—figures standing, waiting, or gathering themselves before a possible shift. Action is withheld in favor of restraint and internal tension, with emphasis placed on the surrounding empty space: a space that holds experience and lived time, where a noise-filled quiet resolve exists. Figures are often isolated against textured, pared-down surfaces, heightening their presence and underscoring the stillness at the core of the work. This exhibition marks Ötvös' fourth presentation at CSI Project Space & Gallery.

Working across fine art, theater, and film, Ötvös is also an Emmy-nominated makeup artist for the television series *The Bear* and serves as the resident makeup artist at Trap Door Theatre.
